Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on March 11, 2008 has been entered.

Response to Arguments

2. Applicant's arguments, see Remarks, filed July 1, 2008 with respect to the Notice of Non-Compliant Amendment mailed June 2, 2008 have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, a restriction and election requirement is made herein, prompted by the presentation of new claims 52-59 drawn to different embodiments of the claimed invention.

Election/Restrictions

3. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 37, 39-47, 50 and 52-55, drawn to an ostomy appliance body-side member and method of using a body-side member.

Group II, claim(s) 48, 49, 51 and 56-59, drawn to an ostomy appliance sealing member and method of using with an ostomy appliance body-side member.

4. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: they are subcombinations which are usable together and thus lack any common or corresponding technical features.

5. This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

- (1) the species of Fig. 2;
- (2) the species of Fig. 6; and
- (3) the species of Fig. 7

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

6. The claims are deemed to correspond to the species listed above in the following manner:

Species (1) (Fig. 2): 37,39,40,41,42,45,46,47,50,52

Species (3) (Fig. 6): 37,39,42,43,44,45,46,47,50,52,53

Species (4) (Fig. 7): 37,39,42,43,44,45,50,52,53,54,55

The following claim(s) are generic: 37, 39, 42, 45, 50 and 52.

7. The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: the species of Fig. 2 lacks the separator sheet found in the species of Figs. 6 and 7 and the separator sheet and/or carrier sheet with weakening zones or cuts. The species of Figs. 2 and 6 lack the integral bag found in the species of Fig. 7. As such the species lack the common special technical feature of a carrier sheet and/or separator sheet with weakening zones or cuts.
